Drafty and uncomfortable homes. Rising fuel costs. Poor indoor air quality. There's a career in fixing these problems for homeowners. Become a home performance energy service provider with the Maine Home Performance with ENERGY STAR® Program.

Now in its second year, requests from homeowners for work currently exceed our capacity to meet demand. We invite you to become part of the MaineHP Program and join the growing number of certified statewide service providers.

Training topics include the following: building performance basics; site design inspection; air leakage, ventilation and moisture; insulation performance; space heating; safety analysis and testing; and baseload (water heating and appliances).

In-field mentoring complements this classroom training. Contractors will then take the Building Performance Institute Building Analyst 1 certification exams.

Instructor: Rick Karg of R.J. Karg Associates in Topsham, Maine is one of nation's leading experts in building science and weatherization.

Dates: Week of November 10, 2008

Time: 8:30 AM - 4:00 PM

Certification: Building Performance Institute's Building Analyst 1

Food: Breakfast and lunch will be provided

Cost: \$1700

Location: Maine Oil Dealers Association (MODA)
25 Greenwood Road
Brunswick, ME

Directions: Click [here](#)
